EDUCATION

Maharishi Markandeshwar Engineering College   **2020– 2024**
*B.Tech- Computer Science and Engineering (Data Science)- **C**GPA- **8.5***   *Ambala, Haryana*

INTERNSHIP

Finolity Consultancy Private Limited ↗   **Jan 2023– June 2023 (Offline Mode)**
Full Stack Software Engineer   *Yamunagar, Haryana*

- During my internship at Finolity, I worked as a Full Stack Developer, focusing on creating responsive web pages using React and Node.js. I was responsible for both front-end and back-end development, which involved integrating APIs and optimizing performance to enhance user experience across various devices. This role allowed me to collaborate closely with the development team, address technical challenges, and apply best practices in web development, significantly improving my skills and efficiency.

PROJECTS

E-learning live project ↗ | React JS , Node JS, MongoDB, IDE - VS Code   **2023**

- Developed a platform allowing students to purchase individual learning modules, offering greater flexibility and cost-effectiveness.
- Designed a responsive and intuitive user interface using React JS to enhance the learning experience.
- Built a robust backend with Node JS and MongoDB to handle user accounts, course content, and transactions.
- Implemented secure payment integration and optimized data management to ensure a smooth and reliable user experience.

Blog management web application ↗ | HTML, CSS, Django, Bootstrap   **2022**

- Developed a blog management web application enabling users to create, edit, and delete posts, as well as like and comment on others' content.

ATM Transaction Management System ↗ | Java, OOPS, Eclipse   **2021**

- Developed a simple ATM machine application that allows users to view transaction history, deposit, and withdraw funds directly within the Eclipse IDE.
- Implemented using Java and Object-Oriented Programming principles to ensure reliable and efficient transaction processing.

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL
Technologies/Frameworks: ReactJS, NodeJS, Django, GitHub, Bootstrap, MongoDB
Developer Tools: VS Code, Eclipse, IntelliJ IDEA Ultimate

CODING PLATFORMS

∗ Solved **150+** Problems on **GeeksforGeeks**. ↗

CERTIFICATIONS

- Internship: 6-month certificate and letter of recommendation from Finolity Consultancy Private Limited.
- Micro-Certifications: ServiceNow, Flow Designer, Application Developer UI Creator.
- Skill Assessments: Passed LinkedIn HackerRank in Java, HTML, CSS, Django, SQL.
- Front-End Development: Certified in JavaScript and React.js by Developer Student Clubs.
- Full Stack Development: Completed Node JS, React JS, and Python courses via Infosys Springboard. .

EXTRACURRICULAR

∗ Poornima University Hackathon: Secured a top ten finish with innovative ideas; awarded a participation certificate.
∗ Taught basic Python/DSA in offline Mode.
∗ MMEC Cricket Tournament: Competed in the tournament.
